

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Team Members

Vimal Khanna M
Yogesh J
Mohamed Fayaz
Vishnukanth M S

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
The challenge is feeding a growing population, providing a livelihood for farmers, and protecting the environment and giving best result and functioning as the good matter.

Key rules of brainstorming

To run a smooth and productive session

Stay in topic. Encourage wild ideas.

Defer judgment. Listen to others.

Go for volume. If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Vimal Khanna M

make the accurate prototype

we can able to access and understand the dataset and then give the correct visualization

data sources that are accurate and up to date

Creating only a graph and charts representation for dataset.

Mohamed fayaz S

Creating the dashboard that matches the capabilities of the user

Ensure that the data clean and correct

Creating systems to share measure

Greater understanding of environmental challenges

Yogesh j

Don't give the large text for data, use graphs and pie charts

First check the charts are correct

Get the feedback from the user

Ensure that all people can access the data

Vishnukanth M S

Combination of relevant data from the multiple user

Ensure that the given data are correct upto date

Select the correct chart type for the data

Creating systems to share metrics

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

User view

It is user friendly for user and easy to access any place at any time

creating dashboard that matches the capability of the user.

user can easily analyzes crop yields history

Metrics

It can help farmers monitor the health of crops in real-time, create predictive analytics related to future profits and help farmers make resource management decisions based on proven trends.

Reducing waste and improving profits

Greater understanding of environmental challenges

Representation

select the correct visualization

we can view the dataset by using pie charts, bar charts, tables

we can use the suitable charts for suitable dataset

Trend

Checking the correct and negative

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

user can easily analyzes crop yields history

Greater understanding of environmental challenges

we can use the suitable charts for suitable dataset

It can help farmers monitor the health of crops in real-time, create predictive analytics related to future yields and help farmers make resource management decisions based on proven trends.

we can view the dataset by using pie charts, bar charts, tables

select the correct visualization

creating dashboard that matches the capability of the user.

It is user friendly for user and easy to access any place at any time

Checking the correct and negative

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- A Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- B Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint

Define the components of a new idea or strategy.

How to use this template
This template is designed to help you brainstorm and prioritize ideas. It is a collaborative tool that can be used by a team of people to generate and refine ideas. The template is divided into three main sections: Before you collaborate, Define your problem statement, and Brainstorm. Each section contains a set of instructions and a timer to guide you through the process.
